

SHADE CLOTHS

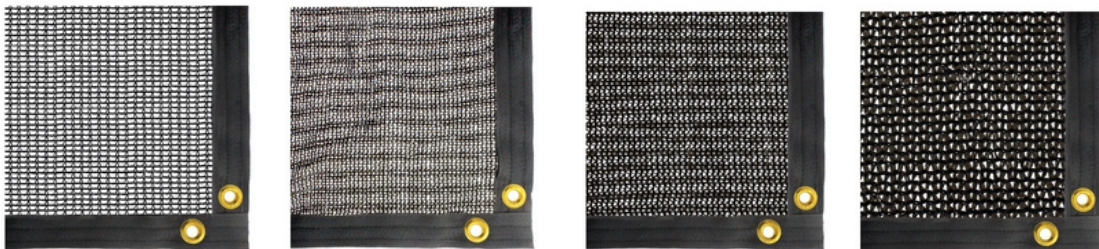

Applications:

- Agriculture
- Nurseries
- Cattle Sheds
- Playgrounds
- Construction
- Permanent Structures
- Swimming Pools

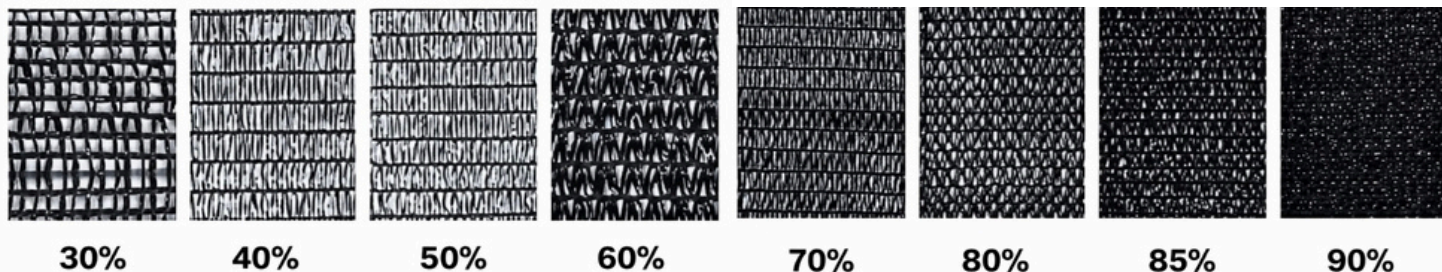

We can customized the length of your shade coverage.

Shade cloth is used for a broad variety of crops to provide uniform shade, control air movement in greenhouses and nurseries, and to protect crops from birds. Knitted shade cloth is agrochemical resistant and contains UV resistant additives that last up to 8 years depending on the environment conditions.
